CREATIVE SUNSHINE INC.

ALOHA, KAUAI!

BONUS ISLAND!

Upon your arrival to this incredibly lush "Garden Isle," take in the beauty of a Hawaiian rainbow, one of the many common treasures found on Kauai.

Spend the morning sipping coffee from the balcony of your 5-star hotel room. Dip your toes in the sand with a stroll along the ocean, enjoy a refreshing swim, or cruise the coast on a paddle board.

Have lunch aboard a private charter to explore the famous, Na Pali Coast, one of the most breathtaking places on earth. Jump in and snorkel the crystal-clear waters below.

There are so many ways to experience the natural beauty of Kauai, from tropical forests, majestic mountain peaks, to white sandy beaches. Venture out and explore the waterfalls and vivid colors of the Waimea Canyon, the "Grand Canyon" of the Pacific.

And of course, take time to chill in a beach side hammock, feast on flavorful fresh fruits, relax by the pool, and treat yourself to a Mai Tai at sunset. We invite you to savor every moment and make memories in this perfect paradise!

ALOHA, MAUI!

The instant you step foot on this island, you'll be captivated by its intoxicating charm and tropical beauty. Get ready to be entertained by the most exhilarating of all cultural experiences, a traditional Hawaiian luau. Brightly costumed Hawaiian & Polynesian dancers perform beneath arching palms with the backdrop of splashing waves and tik torches flickering at sunset.

Maui has so much to offer! Learn to hula dance, swim with sea turtles, play a round of golf, lay by the pool, or ride the waves on a boogie board.

Or, rent a Jeep and explore the breath-taking scenery on the famous Road to Hana, where waterfalls, beautiful bays and amazing lookouts promise to impress.

By the end of this spectacular adventure you'll be smiling ear to ear because you've just experienced the world's most beautiful island.

ALOHA, OAHU!

Welcome to paradise, where you'll be greeted with warm Hawaiian smiles and sunshine!

Get settled into your 5-star luxury accommodations. Take a refreshing dip in the pool, treat yourself to some "me" time at the spa, or simply soak in the incredible views with a tasty umbrella drink. Make sure to save your appetite for an exquisite welcome dinner.

Oahu, known as "The Gathering Place," is the third-largest of the Hawaiian islands. Explore the culture or peruse the local shops. Take in the salty ocean air and watch the brilliant blue waves, maybe even learn to surf, go casting for bonefish, enjoy kayaking or a take a North Shore Adventure tour.

And you won't want to miss the half day guided sightseeing tour of historical Pearl Harbor.

Each evening revel in the explosions of color from the sunsets over the water. Take a beach stroll, kick back in a lounge chair, or sip cocktails...whatever you choose to do will be spectacular because you are in paradise!

PRESIDENT'S AWARD

A big "mahalo" to all who have worked hard to make our company a success. We invite you and your significant other to enjoy surf, sun and adventure.

TWO ISLAND HOP

- \$44,000,000

MASSAGE & PAIN RELIEF
 FEATURING
mojiHEAT™

LIVE PAIN FREE. STAY ACTIVE. DO WHAT YOU LOVE. gomoji.com

WHY MOJI?

Moji's mission is to help people of all ages live pain free and stay active. That's why we have created an array of best-in-class patented massagers, rollers, wraps, and other premium products that make people feel great. When daily pain and stiffness strikes, Moji is the answer.

Our latest cutting edge massagers –our MojiHeat™ balls and roller– combine the benefits of massage with the awesome power of

therapeutic heat to soothe muscles throughout the body. Moji developed these massagers by building on its success with its PRO and Travel-friendly massagers. Adding heat is a game changer. Heat added to massage creates an incredible relaxation and pain relief combo that feels great.

No matter what Moji product you choose, Moji will help you live pain free, stay active, and do what you love.

mojiHEAT™

HEAT + MASSAGE = THE ULTIMATE MUSCLE THERAPY

HEATED MASSAGE BALLS NECK WRAP MOIST HEAT WRAPS MID-BACK WRAP
 HEATED ROLLER LOWER BACK WRAP

WHY ADD HEAT?

- Heat helps muscles and tendons relax, allowing for a greater range of motion.
- Massage reduces muscle soreness, increases blood flow, and triggers a release of endorphins.
- Heat and massage together feel GREAT!

mojiHEAT™

stay HEALTHY

An innovative solution combining technology and world class health services to enable an aging adult to stay healthy and live independently in their home.

stay SMARTCARE
The New Way to Age in Place

INTRODUCING

stay HEALTHY The New Way to Age in Place

"I want to be assured that my Father is healthy and safe without complicated monitoring or intrusive cameras."

Enjoy peace of mind with Stay Smart Care HEALTHY!

Finally an aging in place solution that provides a complete picture of your loved one's health. Unlike trendy watches or devices, Stay Smart Care HEALTHY analyzes health, medical and cognitive data for predictive purposes in order to detect and identify problems earlier—before they become an emergency. This cost-effective and comprehensive solution enables an aging parent to **Stay HEALTHY** and independent in their home while caregivers can **Stay** assured that they have the best care, 24/7.

Stay Smart Care HEALTHY combines innovative technology with world class health services. Daily blood pressure, pulse, oxygen, temperature and weight are easily measured and collected. Passive sensors provide the highest level of supervision with the least amount of intrusion. A dedicated professional nurse oversees cognitive health and has the ability to dispatch medical support if needed. Clinically accurate, insightful and objective data is shared with the primary care physician between office visits promoting improved quality of care. Plus, it's easy to stay connected with the Stay Smart Care mobile app or Alexa.

**Introducing A Better Way
To Bridge The Gap**

3D Printed Tooth Replacement

Arfona

The fast, easy and comfortable way to get your smile back.

Valplast® partial dentures offer a new and flexible way to restore missing teeth...and your smile!

Traditional removable partial dentures (to replace one or a few missing teeth) are made with metal alloys and acrylic resins that are rigid and prone to breakage. These partials can also deteriorate over time and cannot adjust to changes that occur naturally to your teeth and gums. This can lead to discomfort, breakage and damage to your remaining natural teeth.

Partial dentures made with Valplast®—a leading dental material for over 70 years—are flexible, comfortable, and allow for the natural movement of your teeth and gums. Valplast® partials carry a lifetime guarantee against breakage (under normal use), giving you added security with your new teeth. When it comes to tooth replacement, Valplast® partials are the beautiful, comfortable choice.

- Beautiful • Comfortable • Affordable
- Virtually Invisible • Lightweight
- Convenient • Strong & Durable

Ask your dental professional today about replacing missing teeth easily, comfortably and naturally with flexible partial dentures made entirely of Valplast®.

valplast exclusively by **Arfona**

Valplast® Gives You Something To Smile About.

Fast, convenient, easy way to get your smile back.

A 3D scan is made of your remaining teeth and gums. Your dentist will either scan your mouth directly or take an impression that is scanned by our technicians.

Your scan is then analyzed by expert technicians to design and craft your new smile. Your custom partial denture will be created using advanced 3D printing technology.

Your dentist will meticulously review your case to assure a perfect fit and beautiful aesthetics. Most cases are shipped within 4 days!

Perfect fit. Beautiful Aesthetics. Better function.

- 3D printed Valplast carries a lifetime guarantee against breakage and fracture.
- Valplast® is a superior nylon material trusted by dentists for decades.
- Patent-pending processes ensure the strongest bond between the teeth and the partial denture.
- Digital design/3D printing is more precise and leads to better fitting appliances with fewer adjustments.
- Innovative process results in a fast turnaround and less chair time.
- Restorations are designed and fabricated in the United States from FDA registered materials.
- Valplast® looks very natural and will stay beautiful and comfortable for years to come.
- Valplast® flexible partial dentures require only non-invasive procedures.

valplast exclusively by **Arfona**

Millions of patients have already discovered the benefits of wearing a Valplast® Flexible Partial.

Valplast® Flexible Partial dentures are a beautiful, comfortable and affordable choice for tooth replacement. Flexibility combined with strength and light weight, provide total comfort and great looks for any dental patient. Valplast® is made from a unique translucent nylon material that blends in with your natural gum tissues to become virtually invisible when placed in the mouth. Be confident when talking, eating, and of course, smiling.

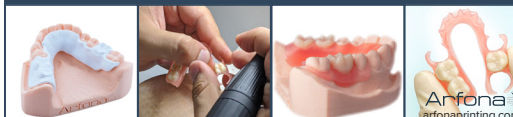

100% GUARANTEE

Ask your dentist about the innovative, perfect-fit tooth replacement solution guaranteed to make you smile!

Send us a scan, we'll send you a smile.

3D Printed Valplast® partials sent directly from your model scan or digital impression

Arfona
arfonaprinting.com

Save time & make more profit.

Arfona® Printing uses unique patent-pending techniques to create the highest quality, unbreakable partial dentures available at a fraction of the cost of traditional tooth replacement options.

Scan & Upload
Arfona® accepts all model scans, impression scans and digital impressions. Send scans, patient photos and Rx information effortlessly through our online portal, by email or via our proprietary 3Shape Communicate.

Design
Arfona technicians will review the scans and design the restoration in accordance with the Rx. A 3D preview will be sent for your approval before the case is printed.

Print
We'll design your Valplast partial denture, 3D print it and finish it within a matter of days at our state-of-the-art print center.

Post Process
Our proprietary post-processing techniques smooth out and polish the denture before sending back to your lab.

Our 3D printed flexible partials are made from Valplast®, the world's leading brand of flexible partial denture. Trusted for over 70 years, every Valplast® partial from Arfona Printing comes with a lifetime guarantee against breakage and fracture.

The nation's largest and most experienced digital Valplast® lab.

No startup costs - sign up for free!

LIGHTBLOCKS
dream·create·transform

FEATURED PROJECTS

A decorative horizontal line of small colored dots is located at the bottom of the page.

DESIGN CHALLENGE

The designers for this project were challenged with a very small retail space where they wanted to display eyeglasses in a unique style that allowed for maximum product display without a cluttered appearance.

LIGHTBLOCKS SOLUTION

LIGHTBLOCKS "ice" single-layer material was selected as shelving for its unique translucency and warm glowing appearance. Items displayed on "ice" appear as if they are floating. Luminescence and finish integrate the surface with the material depth to create a visual illusion of suspension. One-inch thick material was used for its structural properties, allowing for minimal support components to not impede the panorama.

LIGHTBLOCKS "ice" was also selected to construct a service table. The translucency of the material helped expand the small space. Plus, LIGHTBLOCKS fingerprint resistant finish provides an added bonus by leaving shelving and tabletops looking clean after every use by patrons and staff.
